```

4 Custom Module & Background Colour

5 Inside A Table Cell

QR	Product	Barcode
	Wireless Mouse SKU-10231	
	Mechanical Keyboard SKU-10456	

API Summary

Barcode(data, width?, height, hexColor, backgroundHexColor, showCaption, quietZoneModules)

Code128 (Subset B) — encodes printable ASCII 0x20-0x7E.

QrCode(data, size?, level, hexColor, backgroundHexColor, quietZoneModules)

ISO/IEC 18004, byte-mode, versions 1-40, all four error correction levels.

Both render as vector-filled rectangles — no raster image pipeline, crisp at any zoom, and place inside any container: Column, Row, Table cell, header, footer.
